Code: L_0_17_Tenant_Customer_Service
(Aligned with RAM Integrated Policy & Process Architecture)

17.1 Tenant & Customer Service Policy

Purpose:
Ensure structured, measurable, and high-quality service delivery to tenants and customers across all RAM properties and assets.

Scope:
Applies to leasing clients, tenants, investors (where applicable), and service users within managed facilities.

Principles:

- Responsiveness & transparency
- SLA-driven service delivery
- Digital tracking & auditability
- Continuous improvement through feedback

17.2 Process Architecture (WBS-Coded Policy Tree)

```

17.3 End-to-End Service Request BPMN (Structured Flow)

Level 1 Flow

Tenant → Service Desk → System (CRM/ERP) → Facility Team → Confirmation → Closure → Survey

---

Detailed Process Flow

1. Tenant submits request (Portal / Email / Hotline / App)
2. Service Desk logs ticket
3. System assigns ticket ID
4. Categorization (Maintenance / Billing / Access / Commercial / Other)
5. SLA automatically triggered
6. Work order generated (if technical)
7. Assigned to technician/vendor
8. Completion update
9. Tenant confirmation
10. Ticket closure
11. Auto satisfaction survey sent

17.4 SIPOC Model

Supplier	Input	Process	Output	Customer
Tenant	Service Request	Log & Classify	Ticket ID	Tenant
CRM System	Ticket Data	Assign & Track	Work Order	Facility Team

Supplier	Input	Process	Output	Customer
Facility Team	Work Order	Execute Task	Completed Job	Tenant
Management	KPI Review	Improve Process	Service Improvement	All Tenants

17.5 RACI Matrix

Activity	Service Desk	Facility Manager	Technician	CRM Admin	GM
Log Request	R	A	-	C	-
Categorize	R	A	-	C	-
Assign Work Order	C	R	A	-	-
Close Ticket	R	A	C	-	-
Complaint Escalation	C	R	-	-	A
KPI Review	C	R	-	-	A

R = Responsible
A = Accountable
C = Consulted

17.6 SLA Classification Framework

Category	Priority	Response Time	Resolution Time
Emergency (Safety)	P1	30 mins	4 hrs
Critical Operations	P2	2 hrs	8 hrs
Standard Maintenance	P3	4 hrs	24–48 hrs
Non-Technical / Admin	P4	1 day	3–5 days

17.7 KPI Framework

KPI	Formula	Target
Average Response Time	Sum response time / # tickets	< SLA
First Time Fix Rate	Tickets resolved without re-open	>85%
NPS	%Promoters – %Detractors	>50
Complaint Recurrence	Repeat complaints / total	<5%
Tenant Retention Rate	Renewed / Eligible	>90%

17.8 SAP / ERP System Configuration

Modules Required:

- CRM Module
- Facility Management Module
- Ticketing Workflow
- SLA Automation
- Mobile Technician App
- Dashboard Analytics

Key Fields:

- Tenant ID
- Asset ID
- Category
- Priority
- SLA clock
- Resolution notes
- Satisfaction rating

17.9 Forms & Templates Register

Code	Form Name
F-17-01	Tenant Service Request Form
F-17-02	Complaint Registration Form
F-17-03	Work Order Form
F-17-04	SLA Monitoring Sheet
F-17-05	Tenant Satisfaction Survey
F-17-06	Service Performance Dashboard Template
F-17-07	Escalation Approval Form
F-17-08	Root Cause Analysis Template

17.10 Customer Experience Enhancement Framework

1. Digital Portal Features

- Real-time ticket tracking
- Downloadable invoices
- Lease documentation access
- Notifications

2. Relationship Strategy

- Quarterly tenant engagement meetings
- Annual tenant appreciation event
- Renewal pre-engagement (6 months before expiry)

3. Retention Model

- Early renewal incentives
- Loyalty discounts
- Cross-service offerings

17.11 Risk & Control Matrix (ISO 37301 / COSO Aligned)

Risk	Control	Control Type	Owner
SLA Breach	Automated SLA alerts	Preventive	CRM Admin
Data Leakage	Access rights restriction	Preventive	IT
Complaint Escalation Failure	Mandatory escalation workflow	Detective	Facility Manager
Vendor Delay	Performance-based contract	Preventive	Procurement
Poor Service Quality	NPS tracking & RCA	Corrective	GM

17.12 Service Governance Dashboard Structure

Executive Dashboard Should Include:

- Open Tickets (by category)
- SLA Breach %
- NPS Score
- Tenant Retention %
- Complaints trend (monthly)
- Technician productivity ratio

17.13 Continuous Improvement Cycle

1. Monthly KPI Review
2. Quarterly Tenant Feedback Analysis
3. Root Cause Analysis

4. Process Redesign
5. Policy Update
6. Staff Training

17.14 Integration with Other RAM Sections

Related Section	Interface
03_Leasing	Tenant onboarding trigger
04_Facility_Management	Work order execution
11_Finance_Accounting	Billing complaints
07_Risk_Compliance	Data protection & escalation
06_Performance	KPI aggregation

Governance Maturity Levels

Level	Description
Level 1	Manual, email-based
Level 2	Ticket system only
Level 3	SLA automated
Level 4	CRM + Analytics
Level 5	Predictive AI-based service optimization

NEXT TO BE DONE

- Produce **full BPMN visual diagrams**
- Generate **complete editable forms content**
- Build **Tenant Experience Strategy Deck (consulting-grade PPT structure)**
- Or create the **ISO 41001 Facility Service alignment mapping**
