06_Performance

This section governs how RAM measures, monitors, evaluates, and improves asset, financial, operational, and strategic performance across the portfolio.

Below is the **WBS-coded policy tree**, fully structured and aligned conceptually with:

- ISO 55001 (Asset Management)
- COSO Performance & Monitoring
- OECD-DAC logic (for impact-linked assets if applicable)
- Real estate / asset management global best practice

◆ Options + forms

1. **Governance Risk & Control Matrix (aligned with COSO Monitoring & Performance)**
2. Build a **Performance KPI Master Table (Consulting-grade, full matrix)**
3. Create **BPMN process maps** for performance cycle
4. Design **Board Reporting Pack structure**
5. Build **Performance Scoring Engine (1–5 weighted model)**
6. Integrate it into a full RAM Enterprise Manual master structure
